It is the role of the Executive Director of the Chancellor's Animal Care and Use Program to establish and implement the campus-wide program ensuring that all animal facilities and husbandry programs are in compliance with the Animal Welfare Act, National Institutes of Health guidelines and UCLA campus policies; provide medical veterinary services for all animal facilities on the UCLA campus and any contract facilities; serve as advisor on all veterinary matters at UCLA; provide consultation and training to research investigators, technicians, and husbandry staff; and report to the Dean of the David Geffen School of Medicine and the Vice Chancellor for Research on all research related issues.

In the absence of the Executive Director, the designee will assume all responsibilities for the Campus Animal Care and Use Program.
